

Driving the Future, Empowering Intelligent Manufacturing Limitlessly

——ZQSOFT – Expert in Tire Intelligent
Manufacturing Software Solutions

Create new value for customers!

DaLian ZQSoft Co.,Ltd.

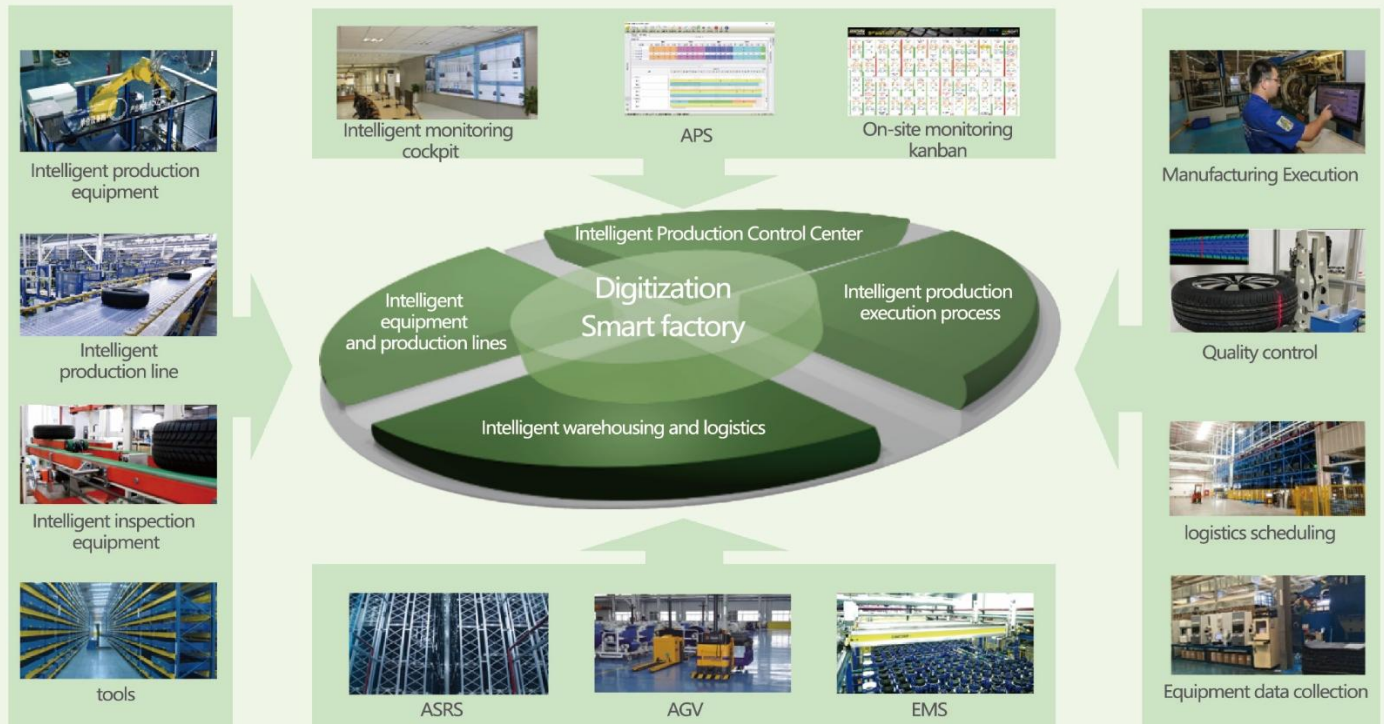

APS Ensure delivery time, improve efficiency, reduce costs

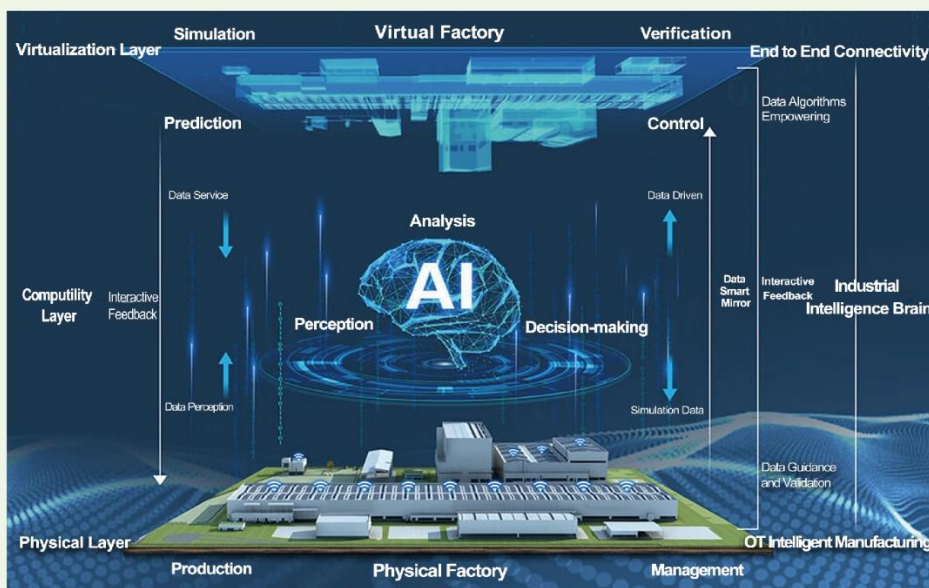

MES

- ✓ Real time monitoring reduces non production downtime by **50 %**
- ✓ Transparent management, reducing non production consumption by **25 %**
- ✓ Process error prevention, continuous and stable quality

AI Applications

Support localized deployment of AI models such as **DeepSeek** and establish enterprise level AI applications.

Decision maker's external brain
- intelligent Q&A robot

RPA- Digital Employee

Intelligent maintainer - device
failure prediction

Deep Data Learning - technology
Parameter Optimization

Data Mining Engine - Logistics
Route Optimization

Why choose us ?

Create new value for customers

Save labor costs

\$15million

Reduce non production consumption by

25%

More than

50%

Save space effectively control costs

Unplanned downtime on production line is reduced

60%

More than

Powerful technical team

Rich Industry Experience
